DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on October 22, 2003, November 3, 2003 and February 2, 2005 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Objections

Claims 13-20 are objected to because of the following informalities:

Regarding claim 13, line 1: Insert –further—after “step”.

Regarding claim 14, line 3: Insert –further—after “step”.

Regarding claim 15, line 1: Insert –further—after “step”.

Claims 16-20 are object to as being dependent upon a previously objected claim.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Srinivason et al. (US# 6,240,485).

Regarding claim 12, Srinivason et al. teaches a method of operating a cascaded chain of CAM devices (abs., lines 1-3), comprising the step of: performing a learn operation in the cascaded chain of CAM devices (col. 14, line 58 – col. 15, line 3) by passing a learn instruction through a plurality of CAM devices (col. 15, lines 19-20) in the cascaded chain using a distributed control architecture that offsets timing of learn operations within each of the plurality of CAM devices (col. 15, lines 59-61; col. 16, lines 16-26).

Allowable Subject Matter

Claims 1-11 and 21-24 are allowed over the prior art of record.

Claims 13-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art corresponds to related CAM systems.
